

Software Intern: .NET Developer - Job ID#: 1504

UWorld - Irving, TX (Dallas area)

Last updated: 04-14-2015

Job Description

We are currently seeking to hire one highly-motivated individual to join our team as a .NET developer intern who will make an immediate impact to our web-based, medical-test preparation company. Successful candidates will enjoy problem solving and have experience in design, development, testing, and deployment of interactive web applications.

Responsibilities

- Contribute to the development of innovative products and solutions
- Collaborate with web developers, designers, and UX designers in building prototypes and interactive web applications
- Design, develop, test, and document design, architecture and implementation of solutions
- Identify and correct operational issues

Requirements

- Master's degree candidate in Computer Science or related studies
- Must be a problem solver who can find creative solutions to challenging problems
- Must have excellent analytical and process-oriented skills
- Must have excellent written and verbal presentation skills
- Must be able to work independently and efficiently to meet deadlines
- Must be willing to take new responsibilities as needed

Languages and Platforms

- Experience with ASP.Net, Objective C, C++, C#, XML, HTML, CSS, Microsoft IIS is required
- Working knowledge of relational databases and MS SQL Server, MySQL, or Oracle is a plus
- Knowledge of Java, JavaScript, MVC, JQuery, AJAX, SQL Reports is a plus

Compensation and Benefits

- Compensation is \$3500 per month
- Paid holidays
- Complimentary fitness center on site
- Casual work environment

Location and Duration

- Location: Irving, TX (Dallas area) headquarters
- Duration: Minimum 2 months (option up to 12 months)
- Hours per week: 40
- Schedule: 9:00AM – 6:00PM, M-F

To Apply

- Interested candidates should apply with résumé and cover letter to: jobs@uworld.com

About Us

UWorld, established in 2003, is the leading provider of quality preparatory material for medical examinations, including the *United States Medical Licensing Examination (USMLE™)*, the *American Board of Internal Medicine (ABIM™)*, and the *National Council Licensure Examination (NCLEX™)* and other products in development. We are a web-based resource designed for medical & nursing students, residents, physicians, and allied health care professionals.
